Prehistoric Textiles E. J.W. Barber, 2021-11-09 This pioneering work revises our notions of the origins and early development of textiles in Europe and the Near East. Using innovative linguistic techniques, along with methods from palaeobiology and other fields, it shows that spinning and pattern weaving began far earlier than has been supposed. *Prehistoric Textiles* made an unsurpassed leap in the social and cultural understanding of textiles in humankind's early history. Cloth making was an industry that consumed more time and effort, and was more culturally significant to prehistoric cultures, than anyone assumed before the book's publication. The textile industry is in fact older than pottery--and perhaps even older than agriculture and stockbreeding. It probably consumed far more hours of labor per year, in temperate climates, than did pottery and food production put together. And this work was done primarily by women. Up until the Industrial Revolution, and into this century in many peasant societies, women spent every available moment spinning, weaving, and sewing. The author, Elizabeth Wayland Barber, demonstrates command of an almost unbelievably disparate array of disciplines--from historical linguistics to archaeology and paleobiology, from art history to the practical art of weaving. Her passionate interest in the subject matter leaps out on every page. Barber, a professor of linguistics and archaeology, developed expert sewing and weaving skills as a small girl under her mother's tutelage. One could say she had been born and raised to write this book. Because modern textiles are almost entirely made by machines, we have difficulty appreciating how time-consuming and important the premodern textile industry was. This book opens our eyes to this crucial area of prehistoric human culture.

The Scandinavian Home Niki Brantmark, 2017-04-18 Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary

Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog My Scandinavian Home, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian lifestyle is reflected in them all. The first chapter, Urban Living, features styles ranging from minimalist to bohemian, and pale palettes to dramatic dark colors. By contrast, the Country Homes tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular Rural Retreats include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.
