The Hot Air Balloon Book Clive Catterall, 2013 More than a century before the Wright brothers' first flight, humans were taking to the skies in hot air balloons. Today, with basic craft skills, you can build and safely launch your own balloons using inexpensive, readily available materials. Author and inventor Clive Catterall provides illustrated, step-by-step instructions for eight different homemade models, as well as the science and history behind them. Some, like the Solar Tetron or the Trash Bag Sausage, are made from plastic bags and tape. Others, like the Khom Loi or the Kongming Lantern, are built using tissue paper and wire. The Hot Air Balloon Book also shows readers ways to heat the interior air that lifts these balloons, from tea candles to hair dryers, kitchen toasters to the sun's warming rays. Always keeping safety in mind, the author includes detailed guidelines on when and where open flames are appropriate and the proper weather conditions to launch these lighter-than-air craft.

Winter Lights Anna Grossnickle Hines, 2005-09-27 Rich, luminous fabrics. Eleven miles of thread. An uncountable number of stitches. Clear, sparkling words. With these ingredients Anna Grossnickle Hines celebrates the lights that brighten the darkest season of our year. In poems and quilts she captures each heartening glow and flicker, from the moon and aurora borealis to the holiday lights of Santa Lucia, Hanukkah, Christmas, Kwanzaa, and Chinese New Year to one lone candle and a hidden flashlight in the deep, dark night.

The Flat Earth Trilogy Book of Secrets I Gregory Lessing Garrett, 2018-12-20 This book is an Anthology of Gregory Lessing Garrett's writings and others on the topic of Flat Earth Plane Cosmology of all types, including Enclosed Earth, Hollow Earth, Concave Earth, Infinite Plane Earth, The Enochian Earth Model, etc... The hope is that the ideas expounded in this Flat Earth Trilogy series will provide compelling justifications for the claim that no curvature can be found on the Earth,

which points to the empirical conclusion that we live on a plane and not a spinning ball in science fiction outer space. The details regarding the possible topography of the Earth are discussed in depth in this book, but ultimately, the absolute true topography of the Earth is not known by anyone. -Gregory Lessing Garrett

Sky Lantern Matt Mikalatos,2016-11-15 Matt Mikalatos offers a poignant and compassionate look at a father's relationship with his children, the healing power of a small act of kindness, and the certainty that even death can't stop love in a deeply moving memoir inspired by a sky lantern with a scribbled note and the journey to find the child who wrote it: Love you, Daddy. Miss you so much. Steph. Steph scribbled those words on a sky lantern before sending it off to her father in heaven who had passed away from cancer. Halfway across the country, Steph's lantern landed in Matt Mikalatos's yard. As a father of three daughters, Matt could not let Steph's note go unanswered, so he posted an open letter to her on his blog. Matt never could have expected the viral response to his letter that led him on a journey to find Steph--and to bring healing to thousands of others in desperate need of the loving words of a father. Filled with paternal wisdom and reflections on the relationship between a father and his child, Sky Lantern shows how the miraculous events that followed Matt finding the sky lantern in his yard--and the widespread and lasting impact his letter had--prove that the bond between a parent and their child is everlasting--

Aguinaldos Virginia Nylander Ebinger,2012-09-15 “Aguinaldos y villancicos, recetas, tradiciones de Navidad”—songs, recipes, and traditions of Christmas from the nineteen Spanish-speaking countries of Middle and South America, as well as from the one state that is officially bi-lingual, are included in this well-researched book. There is a wealth of Christmas music, much of it unknown to North Americans, with tunes and guitar chords, words and translations. And there are recipes from each country for holiday foods, ranging from simple beverages to complex tamales and desserts—from “gingebre” to “hallaca” and “tres leches.” Also included are customs and traditions from each of the countries, some common to all, others specific to place, all reflecting the joys of Christmas. An index, glossary, and extensive bibliography make this a valuable resource for readers of all interests. VIRGINIA NYLANDER EBINGER was a retired music teacher and a teacher trainer, researcher, and author, with special interest in the Hispanic folklore of New Mexico. Among her other publications are “Niñez: Spanish Songs, Games and Stories of Childhood” and “De Colores.”

Star Over Adobe Dorothy L. Pillsbury,2017-07-31 The spell of Christmas in a tri-cultural land pervades this last of Dorothy Pillsbury's four books. In 35 stories she takes us to the winter ceremonies of New Mexico. We watch with her the ancient Zuni rite of the Shalako gods; we are lit by the glow of farolitos on adobe roofs and feel the crunch of clean snow in the mountain lanes. Best of all, we are taken through adobe doorways into the homes of friends and neighbors, like those of Tenorio Flat, where the welcome is warm and the way of life gentler perhaps than it is today. More than a Christmas book, this is a shining string of tales for all seasons.
