Objects: USA 2020 Glenn Adamson, 2020-10-27 Objects: USA 2020 hails a new generation of artist-craftspeople by revisiting a groundbreaking event that redefined American art. In 1969, an exhibition opened at the Smithsonian Institution that redefined American art. Objects: USA united a cohort of artists inventing new approaches to art-making by way of craft media. Subsequently touring to twenty-two museums across the country, where it was viewed by over half a million Americans, and then to eleven cities in Europe, the exhibition canonized such artists as Anni Albers, Sheila Hicks, Wharton Esherick, Wendell Castle, and George Nakashima, and introduced others who would go on to achieve widespread art-world acclaim, including Dale Chihuly, Michele Oka Doner, J. B. Blunk, and Ron Nagle. Objects: USA 2020 revisits this revolutionary exhibition and its accompanying catalog--which has become a bible of sorts to curators, gallerists, dealers, craftspeople, and artists--by pairing fifty participants from the original exhibition with fifty contemporary artists representing the next generation of practitioners to use--and upend--the traditional methods and materials of craft to create new forms of art. Published to coincide with an exhibition of the same title at the renowned gallery R & Company, and featuring essays by some of the foremost authorities on craft at the intersection of art, including Glenn Adamson, curator and former director of the Museum of Arts & Design; James Zemaitis, curator and former head of twentieth-century design at Sotheby's; and Lena Vigna, curator of exhibitions at the Racine Art Museum; an interview with Paul J. Smith, the cocurator of Objects: USA; archival photographs of the original exhibition and important historical works; and lush full-color images of contemporary works, Objects: USA 2020 is an essential art historical reference that traces how craft was elevated to the status of museum-quality art, and sets its trajectory forward.

"Surely You're Joking, Mr. Feynman!": Adventures of a Curious Character Richard P. Feynman, 2018-02-06 One of the most famous science books of our time, the phenomenal national bestseller that buzzes with energy, anecdote and life. It almost makes you want to become a physicist (Science Digest). Richard P. Feynman, winner of the Nobel Prize in physics, thrived on outrageous adventures. In this lively work that "can shatter the stereotype of the stuffy scientist" (Detroit Free Press), Feynman recounts his experiences trading ideas on atomic physics with Einstein and cracking the uncrackable safes guarding the most deeply held nuclear secrets—and much more of an eyebrow-raising nature. In his stories, Feynman's life

shines through in all its eccentric glory—a combustible mixture of high intelligence, unlimited curiosity, and raging chutzpah. Included for this edition is a new introduction by Bill Gates.

A Confederacy of Dunces John Kennedy Toole,2007-12-01 Winner of the Pulitzer Prize “A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue.”—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures (Henry Kisor, Chicago Sun-Times).

They both have small bladders but more often it's just to get a moment of quiet, a break from work, or because it's the only way they know how to politely end conversations. So they created a functional meditative guide to help people who suffer from social anxiety and deal with it in this very particular way. Although, it's a comedic book, the goal is to help these readers: 1. Relax 2. Recharge 3. Rejoin the world outside of the bathroom It's also fun entertainment for people simply hiding in the bathroom to avoid doing work.
