The Restless Clock Jessica Riskin, 2016-03-10 A core principle of modern science holds that a scientific explanation must not attribute will or agency to natural phenomena. The Restless Clock examines the origins and history of this, in particular as it applies to the science of living things. This is also the story of a tradition of radicals--dissenters who embraced the opposite view, that agency is an essential and ineradicable part of nature. Beginning with the church and courtly automata of early modern Europe, Jessica Riskin guides us through our thinking about the extent to which animals might be understood as mere machines. We encounter fantastic robots and cyborgs as well as a cast of scientific and philosophical luminaries, including Descartes and Leibnitz, Lamarck and Darwin, whose ideas gain new relevance in Riskin's hands. The book ends with a riveting discussion of how the dialectic continues in genetics, epigenetics, and evolutionary biology, where work continues to naturalize different forms of agency. The Restless Clock reveals the deeply buried roots of current debates in artificial intelligence, cognitive science, and evolutionary biology.

**Ticktock Banneker's Clock** Shana Keller, 2016-09-01 Throughout his life, Benjamin Banneker was known and admired for his work in science, mathematics, and astronomy, just to name a few pursuits. But even when he was born in Maryland in 1731, he was already an extraordinary person for that time period. He was born free at a time in America when most African Americans were slaves. Though he only briefly attended school and was largely self-taught, at a young age Benjamin displayed a keen aptitude for mathematics and science. Inspired by a pocket watch he had seen, at the age of 22 he built a strike clock based on his own drawings and using a pocket-knife. This picture book biography focuses on one episode in a remarkable life.

The Charmed Children of Rookskill Castle Janet Fox,2017-03-07 "An enchanting, ghostly story that had me in its grip until the last page.—Jennifer A. Nielsen, New York Times and USA Today best-selling author of The False Prince "Keep calm and carry on." That's what Katherine Bateson's father told her, and that's what she's trying to do: when her father goes off to the war, when her mother sends Kat and her brother and sister away from London to escape the incessant bombing, even when the children arrive at Rookskill Castle, an ancient, crumbling manor on the misty Scottish highlands. But it's hard to keep calm in the strange castle that seems haunted by ghosts or worse. What's making those terrifying screeches and groans at night? Why do the castle's walls seem to have a mind of their own? And why do people seem to mysteriously appear and disappear? Kat believes she knows the answer: Lady Eleanor, who rules Rookskill Castle, is harboring a Nazi spy. But when her classmates begin to vanish, one by one, Kat must uncover the truth about what the castle actually harbors—and who Lady Eleanor really is—before it's too late.

**I'm Sorry about the Clock** Thomas A. Pendleton,1993 Pendleton, that virtually none of these temporal incoherences seem to have been noted before. Moreover, this study departs from the critical consensus that the earlier drafts of the novel are evidence of Fitzgerald's consummate artistry. Among the discoveries presented here are that Fitzgerald made no use of the 1922 calendar; that he did not work out the novel's time scheme until after completing about half of the manuscript version (possibly because he intended *Gatsby* to be much longer); and that, quite probably, he attempted to disguise at least some of the book's temporal misplacements and contradictions. Further, this study shows that even the most praised of Fitzgerald's revisions - his relocation of materials dealing with *Gatsby's* past so as to gradually reveal his secret - was apparently without exception accompanied by faulty temporal connections to the plot line.

**The House With a Clock In Its Walls** John Bellairs,2004-08-03 A haunting gothic tale by master mysery writer John Bellairs--soon to be a major motion picture starring Cate Blanchett and Jack Black! **House Lessons** Erica Bauermeister, 2020-03-24 A Real Simple Best Book of the Year A deeply moving story of an epic home renovation in the Pacific Northwest—from New York Times–bestselling author of *The Scent Keeper* In this mesmerizing memoir-in-essays, Erica Bauermeister renovates a trash-filled house in eccentric Port Townsend, Washington, and in the process takes readers on a journey to discover the ways our spaces subliminally affect us. A personal, accessible, and literary exploration of the psychology of architecture, as well as a loving tribute to the connections we forge with the homes we care for and live in, this book is designed for anyone who’s ever fallen head over heels for a house. It is also a story of a marriage, of family, and of the kind of roots that settle deep into your heart. Discover what happens when a house has its own lessons to teach in this moving and insightful memoir that ultimately shows us how to make our own homes (and lives) better. “. . . for anyone who has wondered where home is and how to find it, fix it, love it, and leave it for later as well.” —Laurie Frankel, New York Times–bestselling author of *This Is How It Always Is*

**Off the Clock** Laura Vanderkam, 2018-05-29 I well recall a conversation with an executive I hoped to interview about her astonishing productivity. I began our call with an assurance that I would not take much of her time. She laughed. 'Oh, I have all the time in the world,' she said. Most of us feel constantly behind, unsure how to escape feeling oppressed by busyness. Laura Vanderkam, unlike other time-management gurus, believes that in order to get more done, we must first feel like we have all the time in the world. Think about it: why haven't you trained for that 5K or read *War and Peace*? Probably because you feel beaten down by all the time you don't seem to have. In this book, Vanderkam reveals the seven counterintuitive principles the most time-free people have adopted. She teaches mindset shifts to help you feel calm on the busiest days and tools to help you get more done without feeling overwhelmed. You'll meet people such as... ♦ An elementary school principal who figured out how to spend more time mentoring teachers, and less time supervising the cafeteria ♦ An executive who builds lots of meeting-free space into his calendar, despite managing teams across multiple continents ♦ A CEO who does focused work in a Waffle House early in the morning, so he can keep an open door and a relaxed mindset all day ♦ An artist who overcame a creative block, and reached new heights of productivity, by being more gentle with herself, rather than more demanding The strategies in this book can help if your life feels out of control, but they can also help if you want to take your career, your relationships, and your personal happiness to the next level. Vanderkam has packed this book with insights from busy yet relaxed professionals, including time makeovers of people who are learning how to use these tools. *Off the Clock* can inspire the rest of us to create lives that are not only productive, but enjoyable in the moment.

**Worked Over** Jamie K McCallum, 2020-09-08 An award-winning sociologist reveals the unexpected link between overwork and inequality. Most Americans work too long and too hard, while others lack consistency in their hours and schedules. Work hours declined for a century through hard-fought labor-movement victories, but they've increased

significantly since the seventies. *Worked Over* traces the varied reasons why our lives became tethered to a new rhythm of work, and describes how we might gain a greater say over our labor time -- and build a more just society in the process. Popular discussions typically focus on overworked professionals. But as Jamie K. McCallum demonstrates, from Amazon warehouses to Rust Belt factories to California's gig economy, it's the hours of low-wage workers that are the most volatile and precarious -- and the most subject to crises. What's needed is not individual solutions but collective struggle, and throughout *Worked Over* McCallum recounts the inspiring stories of those battling today's capitalism to win back control of their time.

**Making and Repairing Wooden Clock Cases** V. J. Taylor,H. A. Babb,1994 Re-create traditional wooden clock cases with authentic constructional plans.

One can revamp walls or find a quick solution for a window treatment, and every project can be achieved in a weekend using minimum professional equipment and expertise. **Rare and Unusual Black Forest Clocks** Justin J. English-speaking horologists receive comprehensive information and insights that have heretofore been available only in German. Over 700 striking images showcase the finest examples of clocks made in the region. The text provides much needed information on preeminent clockmakers Johann Baptist Beha and Emilian Wehrle, which place this among the best comprehensive single volumes ever produced in any language. This work also explains the various mechanisms and guides collectors and others trying to identify individual clocks by type, production era, and maker. *Making Wooden Clock Cases* Tim Ashby,Peter Ashby,1992 Complete plans and measured drawings to make 23 clock cases with designs ranging from the classic long case to bracket clocks, wall-hung and mantle shelf pieces, and traditional
