The Afflicted Girls Nicole Cooley,2004-04-01 Twenty individuals were executed and more than 150 imprisoned. The historical body of evidence that remains from the Salem witch trials of 1692 touched the hands, mind, and imagination of poet Nicole Cooley, compelling her to seek entry to an inaccessible past of lies. The Afflicted Girls, so named after the young women who claimed to be victims of witchcraft, spans the centuries to give voice to those both audible and silent on history's pages—accusers and accused of several kinds: wife and husband, servant and master, congregant and minister, and, not least, bewitched and witch. Piercing, enchanting, Cooley's poems form a remarkable narrative, one that displays the enormous cultural power the Salem witch trials retain in twenty-first-century America.

Blockchain Chicken Farm Xiaowei Wang,2020-10-13 A New York Times Book Review Editors' Choice. Selected for the 2023 National Book Foundation's Science + Literature Program. A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous "Sinofuturist" recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech's reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry's many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.

The Haunted Tea-cosy Edward Gorey, 1997 In his Preface to *A Christmas Carol*, Charles Dickens wrote that he tried to raise the Ghost of an Idea with readers and trusted that it would haunt their house pleasantly. In December 1997, 154 Christmases later, the *New York Times Magazine* asked its own Edward Gorey to refurbish this enduring morality tale. The result is this dispirited and distasteful diversion for Christmas. Illustrations.

A History of Me Adrea Theodore, 2022-01-18 An uplifting message of hope for the future and pride in your history, inspired by a mother's experience of being the only Black child in her classroom. Who do you see when you look in the mirror? Emphasizing the strength, creativity, and courage passed down through generations, *A History of Me* offers a joyful new perspective on how we look at history and an uplifting message for the future. Being the only brown girl in a classroom

full of white students can be hard. When the teacher talks about slavery and civil rights, she can feel all the other students' eyes on her. In those moments she wants to seep into the ground, wondering, is that all you see when you look at me? Having gone through the same experiences, the girl's mother offers a different, empowering point of view: she is a reflection of the powerful women that have come before her, of the intelligence, resilience, and resourcefulness that have been passed down through the generations. Her history is a source of pride, a reason to sit up straight and recognize everything beautiful and powerful in herself. What really matters is what we see when we look in the mirror, and what we want to become. Inspired by the authors' experiences in school and as a parent, Adrea Theodore's debut picture book is a powerful testament to the past as well as a benediction for the future. Erin Robinson's digital illustrations feature a wealth of texture and a bold, saturated palette, bringing this warm message of empowerment to life. The Small Claim of Bones Cindy Williams Gutiérrez, 2014 Poetry. Latino/Latina Studies. Women's Studies. Latina poet Cindy Williams Gutiérrez describes a mosaic of worlds--Tenochtitlan, New Spain, and the Mexican diaspora--and takes us on a journey that explores her complex multicultural identity. A literary bridge that spans 600 years of history, these poems reflect two pivotal eras in Mexico's past through the voices of real and imagined historical figures that in turn elicit responses from the poet's contemporary voice. Three series of poems include imagined fifteenth-century Nahua songs, irreverent sonnets and décimas in the style of Sor Juana Inés de la Cruz, and the intimate, contemporary voice of Williams Gutiérrez as she pays tribute to all that she holds dear in Mexico's diverse cultural tapestry. Through its distinctive call-and-response approach, this unique collection extends the literary dialogue of the Americas vital to US Hispanic literature, earning the poet a place in the company of the most esteemed Latina feminist writers.
