*Equity Now* Tyrone C. Howard, 2024-02-20 If not now, when? Anchored in the tenets of justice, repair, and belonging, *Equity Now* is a comprehensive guide for educators that emphasizes the urgent need for immediate action to dismantle systemic barriers in education. Aimed at K-12 professionals at all levels of the education system, the book urges us to move beyond individual efforts by applying an equity lens to our policies and practices. Through honest, sustained, and critical dialogues in brave spaces, educators can address disparities and create equity-centered school communities. *Equity Now* proposes a solutions-oriented approach to fostering welcoming, affirming, responsive, and rigorous learning environments. Author Tyrone C. Howard, one of the leading authorities on issues related to racial inequality in our schools, provides an equity framework grounded in justice, repair, and belonging. A clear vision of equity-focused leadership. Essential practices, strategies, and resources for classroom teachers. Suggestion for engaging parents, families and caregivers in schools. Recommendations for engaging data in an equity based way. Reflection questions and additional resources at the close of each chapter. This book is a must-read for educators, administrators, and policymakers who are committed to creating conditions in which our children can reach their highest potential.

**A Language of Freedom and Teacher's Authority** Fatma Mizikaci,Guy Senese,2017-05-30 A Language of Freedom and Teacher's Authority: Case Comparisons from Turkey and the United States explores dimensions of authority that are deeply embedded in the profession of teaching. It examines critical dimensions of the foundations of Turkish and U.S. public education, both of which are under new pressures due to changes in the relationship between public schooling and current reforms in education. The contributors reflect on varied dimensions of authority, of which ideals are shifting under political and economic pressures. In both Turkey and the U.S, public education reflects the early influence of secular equalitarianism, revolutionary democratic developments, and an Enlightenment-based sense of the human right to education. Against this, we see the opposing dialectic where state control and curricular censorship and constriction appear too often.
