Cracking the Timeline Ruth Rosemary,2023-03-10 History versus science, history versus history, or history with science--who has it right? In this book, you will be challenged to think differently about BC history. Discover a calendar that is over five thousand years old and how the younger calendars go with it in this timeline. Discover a reason why different dates are assigned to the same event. Explore why the Second Temple of Judaism which stood partly BC and partly AD for about 420 years can have a start date in the 500s BC and 300s BC. Discover concurrent event reading of the Bible as it relates to history. Discover the accuracy preserved by forefathers and more. With the use of the Gregorian calendar beginning in the 1500s, we read BC history with dates that go backward as events move forward. This is exactly the opposite of our current dates where the dates move forward as events move forward. In this book there is a BC to AD timeline of the Bible, some history and some prophesied events. As you read, you will go on a journey through history, and put together past and present

through what was written down about events and prophesied events. 157

Transparent Data Mining for Big and Small Data Tania Cerquitelli,Daniele Quercia,Frank Pasquale,2017-05-09 This book focuses on new and emerging data mining solutions that offer a greater level of transparency than existing solutions. Transparent data mining solutions with desirable properties (e.g. effective, fully automatic, scalable) are covered in the book. Experimental findings of transparent solutions are tailored to different domain experts, and experimental metrics for

evaluating algorithmic transparency are presented.
