Green Building Management and Smart Automation Solanki, Arun, Nayyar, Anand, 2019-07-05 Throughout the world, there is an increasing demand on diminishing natural resources in the industrial, transport, commercial, and residential sectors. Of these, the residential sector uses the most energy on such needs as lighting, water heating, air conditioning, space heating, and refrigeration. This sector alone consumes one-third of the total primary energy resources available. By using green building and smart automation techniques, this demand for energy resources can be lowered. Green Building Management and Smart Automation is an essential scholarly publication that provides an in-depth analysis of design technologies for green building and highlights the smart automation technologies that help in energy conservation, along with various performance metrics that are necessary to facilitate a building to be known as a "Green Smart Building." Featuring a range of topics such as environmental quality, energy management, and big data analytics, this book is ideal for researchers, engineers, policymakers, government officials, architects, and students.

How to be a Craftivist Sarah P. Corbett, 2017-10-05 'This is mindful activism . . . thought-out, strategic and engaging' Guardian 'I love what Sarah does! It's quiet activism for everyone including introverts' Jon Ronson 'Sarah Corbett mixes an A-grade mind with astonishing creativity and emotional awareness' Lucy Siegle If we want a world that is beautiful, kind and fair, shouldn't our activism be beautiful, kind and fair? **Award-winning campaigner and founder of the global Craftivist Collective Sarah Corbett shows how to respond to injustice not with apathy or aggression, but with gentle, effective protest. This is a manifesto - for a more respectful and contemplative activism; for conversation and collaboration where too often

these is division and conflict; for using craft to engage, empower and encourage us all to be the change we wish to see in the world. Sarah's craftivism has helped change laws and business policies as well as hearts and minds; here, with thoughtful principles and practical examples, she shows that quiet action can speak as powerfully as the loudest voice.

Dancing to the Drum Machine Dan LeRoy,2022-10-06 Dancing to the Drum Machine is a never-before-attempted history of what is perhaps the most controversial musical instrument ever invented: the drum machine. Here, author Dan LeRoy reveals the untold story of how their mechanical pulse became the new heartbeat of popular music. The pristine snap of the LinnDrum. The bottom-heavy beats of the Roland 808. The groundbreaking samples of the E-MUSP-1200. All these machines-and their weirder, wilder-sounding cousins-changed composition, recording, and performance habits forever. Their distinctive sounds and styles helped create new genres of music, like hip hop and EDM. But they altered every musical style, from mainstream pop to heavy metal to jazz. Dan LeRoy traces the drum machine from its low-tech beginnings in the Fifties and Sixties to its evolution in the Seventies and its ubiquity in the Eighties, when seemingly overnight, it infiltrated every genre of music. Drum machines put some drummers out of work, while keeping others on their toes. They anticipated virtually every musical trend of the last five decades: sequencing, looping, sampling, and all forms of digital music creation. But the personalities beneath those perfect beats make the story of drum machines a surprisingly human one-told here for the very first time.

The Red Flag David Priestland,2016-05-03 "The best and the most accessible one-volume history of communism now available . . . A far-reaching, vividly written account." —Foreign Affairs In *The Red Flag*, Oxford professor David Priestland tells the epic story of a movement that has taken root in dozens of countries across two hundred years, from its birth after the French Revolution to its ideological maturity in nineteenth-century Germany to its rise to dominance (and subsequent

fall) in the twentieth century. Beginning with the first modern Communists in the age of Robespierre, Priestland examines the motives of thinkers and leaders including Marx, Engels, Lenin, Stalin, Castro, Che Guevara, Mao, Ho Chi Minh, Gorbachev, and many others. Priestland also shows how Communism, in all its varieties, appealed to different societies for different reasons, in some as a response to inequalities and in others more out of a desire to catch up with the West. But paradoxically, while destroying one web of inequality, Communist leaders were simultaneously weaving another. It was this dynamic, together with widespread economic failure and an escalating loss of faith in the system, that ultimately destroyed Soviet Communism itself. At a time when global capitalism is in crisis and powerful new political forces have arisen to confront Western democracy, *The Red Flag* is essential reading if we are to apply the lessons of the past to navigating the future. “Detailed and scholarly but written in lively prose, this is a rich, satisfying account of the most successful utopian political movement in history.” —Publishers Weekly, starred review

Dogtripping David Rosenfelt, 2013-07-23 David Rosenfelt's *Dogtripping* is moving and funny account of a cross-country move from California to Maine, and the beginnings of a dog rescue foundation. When mystery writer David Rosenfelt and his family moved from Southern California to Maine, he thought he had prepared for everything. They had mapped the route, brought three GPSs for backup, as well as refrigerators full of food, and stoves and microwaves on which to cook them. But traveling with twenty-five dogs turned out to be a bigger ordeal than he anticipated, despite the RVs, the extra kibble, volunteers (including a few readers), and camping equipment. Rosenfelt recounts the adventure of moving his animal companions across the United States with humor and warmth, and tells the tale of how he and his wife became passionate foster parents for rescue dogs, culminating in the creation of the Tara Foundation and successfully placing several thousand dogs with loving families. An NPR Best Book of 2013

So Close to Amazing KariAnne Wood, 2017-09-05 This is a book celebrating the incredible, awesome, special individual within each of us. It's also a book for anyone who has ever mismatched her shoes or trimmed her own bangs when a professional might have been a better choice or added too much soap to the washer and watched it overflow. (Not that KariAnne Wood has ever done any of these things.) Fans of *The Magnolia Story* and *The Pioneer Woman* will love this debut memoir from the beloved Thistlewood Farms blogger. *So Close to Amazing* is a collection of hilarious and heartfelt reflections on getting it almost right—and how, instead of giving up, we can choose to simply embrace our real selves right where we are. It's a story of transparency and honesty and recognizing that perfection is completely overemphasized and overrated. It's about grace and learning from mistakes and rejoicing in every victory, no matter how small. Because when you find joy in the “you” God created you to be, you'll discover the amazing that was there all along. Contains beautiful DIY project ideas anyone can do, whether you're Pinterest perfect or craft challenged—homemade signs, centerpieces, recipe walls, and more!
