The Non-Toxic Avenger Deanna Duke,2011-11-01 Most of us turn a blind eye to the startling array of chemicals lurking in everything from shampoo to baby bottles to the bills in our wallets, choosing to believe that government agencies ensure the safety of the products we wear, use, ingest and breathe in daily. Yet the standards for product safety in North America

lag far behind those of other countries. We frequently hear that a substance we've relied on for years turns out to have serious effects on our health, the environment, or both. After coming to terms with the fact that the autism and cancer which had impacted her family were most likely the result of environmental toxins, author Deanna Duke undertook a mission to dramatically reduce her family's chemical exposure. She committed to drastically reducing the levels of all known chemicals in both her home and work environments, using the help of bodyburden testing to see what effect, if any, she was able to have on the level of toxins in her body. Follow Deanna's journey as she uncovers how insidious and invasive environmental toxins are. Learn about your day-to-day chemical exposure, the implications for your health, and what you can do about it. And find out whether the author's quest is mission impossible, or whether she is ultimately able to improve her family's health by taking steps towards leading a chemical-free life.

Don't be easy. Don't give it up. Don't be a prude. Don't be cold. Don't put him in the friendzone. Don't act desperate. Don't let things go too far. Don't give him the wrong idea. Don't blame him for trying. Don't walk alone at night. But calm down! Don't worry so much. Smile! Marin is a smart, driven, popular girl - she's headed for Brown when she graduates and has a brilliant career as a journalist ahead of her. Especially in the eyes of English teacher Mr Beckett. He spends a lot of time around Marin, and she thinks it's harmless . . . until he kisses her. No one believes Marin when she tells them what happened, so she does the only thing she can: she writes an article called 'Rules for Being a Girl' for the school paper to point out the misogyny and sexism that girls face every day. As things heat up at school and in her personal life, Marin must figure out how to take back the power and rewrite her own rules.
