Cold-Hardy Fruits and Nuts Allyson Levy, Scott Serrano, 2022-03-11 *2023 GardenComm Media Awards Silver Laurel Medal of Achievement The easy-to-use resource for growing healthy, resilient, low-maintenance trees, shrubs, vines, and other fruiting plants from around the world—perfect for farmers, gardeners, and landscapers at every scale. Illustrated with more than 200 color photographs and covering 50 productive edible crops—from Arctic kiwi to jujube, medlar to heartnut—this is the go-to guide for growers interested in creating diversity in their growing spaces. [Levy and Serrano] go way beyond the standard fare. . . . With their help, you'll be growing persimmons, currants and hazelnuts in no time.—Modern Farmer Cold-Hardy Fruits and Nuts is a one-stop compendium of the most productive, edible fruit-and nut-bearing crops that push the boundaries of what can survive winters in cold-temperate growing regions. While most nurseries and guidebooks feature plants that are riddled with pest problems (such as apples and peaches), veteran growers and founders of the Hortus Arboretum and Botanical Gardens, Allyson Levy and Scott Serrano, focus on both common and unfamiliar fruits that have few, if any, pest or disease problems and an overall higher level of resilience. Inside Cold-Hardy Fruits and Nuts you'll find: Taste profiles for all fifty hardy fruits and nuts, with notes on harvesting and uses Plant descriptions and natural histories Recommended cultivars, both new and classic Propagation methods for increasing plants Nut profiles including almonds, chestnuts, walnuts, and pecans Fertilization needs and soil/site requirements And much more! With beautiful and instructive color photographs throughout, the book is also full of concise, clearly written botanical and cultural information based on the authors' years of growing experience. The fifty fruits and nuts featured provide a nice balance of the familiar and the exotic: from almonds and pecans to more unexpected fruits like maypop and Himalayan chocolate berry. Cold-Hardy Fruits and Nuts gives adventurous gardeners all they need to get growing. Both experienced and novice gardeners who are interested in creating a sustainable landscape with a greater diversity of plant life—while also providing healthy foods—will find this book an invaluable resource.

The Fiction of Evil Peter Brian Barry,2016-10-04 What makes someone an evil person? How are evil people different from merely bad people? Do evil people really exist? Can we make sense of evil people if we mythologize them? Do evil people take pleasure in the suffering of others? Can evil people be redeemed? Peter Brian Barry answers these questions by examining a wide range of works from renowned authors, including works of literature by Kazuo Ishiguro, Mark Twain, Edgar Allan Poe, Herman Melville, and Oscar Wilde alongside classic works of philosophy by Nietzsche and Aristotle. By considering great texts from literature and philosophy, Barry examines whether evil is merely a fiction. *The Fiction of Evil* explores how the study of literature can contribute to the study of metaphysics and ethics and it is essential reading for those studying the concept of evil or philosophy of literature at undergraduate level.

Evil and Moral Psychology Peter Brian Barry,2013 This book examines what makes someone an evil person and how evil people are different from merely bad people. Rather than focusing on the problem of evil that occupies philosophers of religion, Barry looks instead to moral psychology-the intersection of ethics and psychology. He provides both a philosophical account of what evil people are like and considers the implications of that account for social, legal, and criminal institutions. He also engages in traditional philosophical reasoning strongly informed by psychological research, especially abnormal and social psychology. In response to the popularity of phrases like the axis of evil and the ease with which politicians and others describe their opponents as evil, Barry sets out to make clear just what it is to be an evil person.
