DIY on the Lower East Side Andrew Strombeck,2020-08-01 The severe financial austerity imposed on New York City during the 1975 fiscal crisis resulted in a city falling apart. Broken windows, crumbling walls, and piles of bricks were everywhere. While, for many, this physical decay was a sign that the postwar welfare state had failed, for others, it represented a site of risky opportunity that could stimulate novel forms of creativity and community. In this book, Andrew Strombeck explores the legacy of this crisis for the city's literature and art, focusing on one neighborhood where changes were acutely felt—the Lower East Side. In what became a paradigmatic example of gentrification, the Lower East Side's population shifted from working-class people to Wall Street traders and ad agents. This transformation occurred, in part, because of high-profile local artists such as Jean-Michel Basquiat, Keith Haring, Jeff Koons, and Kiki Smith, but Strombeck argues that neighborhood writers also played a role. Drawing on archival research and original author interviews, he examines the innovative work of Kathy Acker, David Wojnarowicz, Miguel Piñero, Sylvère Lotringer, Lynne Tillman, and others and concludes that these writers still have much to teach us about changes in the nature of work and the emergence of a do-it-yourself ethos. *DIY on the Lower East Side* shows how place and politics shaped literature, and how New York City policies adopted at the time continue to shape our world.

DIY Programming and Book Displays Amanda Catherine Struckmeyer,Svetha Hetzler,2010-09-13 This manual guides

librarians in creating simple, affordable, ready-to-use activities for children, 'tweens, teens, and families, with enough material for a full year of programs. Do-it-yourself programming is an emerging model in which the librarian does the preparation, then lets patrons take over. *DIY Programming and Book Displays: How to Stretch Your Programming without Stretching Your Budget and Staff* makes it easy for librarians to institute such programs in their own facilities. Organized around 12 thematic chapters, the book explains how to set up and maintain a do-it-yourself station and offers instructions for a variety of year activities. Reproducible materials and booklists are included as well. Librarians may use the activities as starting points for generating their own ideas or they may simply photocopy materials in the book for ready-to-use, monthly DIY programming. Once set up, the DYI station is available to patrons anytime they are in the library. Best of all, because DIY programs do not rely on staff, space, or special materials, they allow libraries to make the most of their resources without sacrificing patron service.
