**Over Work** Brigid Schulte, 2024-09-17 “Brigid Schulte is a vital voice on the future of work, and her carefully researched book lights the way to fewer hours, less stress, and more meaning.” —Adam Grant, #1 New York Times bestselling author of *Think Again* and *Hidden Potential*, and host of the podcast *WorkLife* From the New York Times bestselling author of *Overwhelmed*, a deeply reported exploration of why American work isn’t working and how our lives can be made more meaningful Following *Overwhelmed*, Brigid Schulte’s groundbreaking examination of time management and stress, the prizewinning journalist now turns her attention to the greatest culprit in America’s quality-of-life crisis: the way our economy and culture conceive of work. Americans across all demographics, industries, and socioeconomic levels report exhaustion, burnout, and the wish for more meaningful lives. This full-system failure in our structure of work affects everything from gender inequality to domestic stability, and it even shortens our lifespans. Drawing on years of research, Schulte traces the arc of our discontent from a time before the 1980s, when work was compatible with well-being and allowed a single earner to support a family, until today, with millions of people working multiple hourly jobs or in white-collar positions where no hours are ever off duty. She casts a wide net in search of solutions, exploring the movement to institute a four-day workweek, introducing Japan’s Housewives Brigade—which demands legal protection for family time—and embedding with CEOs who are making the business case for humane conditions. And she demonstrates the power of a collective and creative demand for change, showing that work can be organized in an infinite number of ways that are good for humans and for business. Fiercely argued and vividly told, rich with stories and informed by deep investigation, *Over Work* lays out a clear vision for ending our punishing grind and reclaiming leisure, joy, and meaning.

**Callings** Dave Isay, 2017-04-18 "Callings will inspire readers at every stage of their careers to view work with a new appreciation for the possibilities it holds beyond the mundane." —Booklist Stories of passion, courage, and commitment, following individuals as they pursue the work they were born to do, from StoryCorps founder Dave Isay In *Callings*, StoryCorps founder Dave Isay presents unforgettable stories from people doing what they love. Some found their paths at a very young age, others later in life; some overcame great odds or upturned their lives in order to pursue what matters to them. Many of their stories have never been broadcast or published by StoryCorps until now. We meet a man from the barrios of Texas whose harrowing experiences in a family of migrant farmers inspired him to become a public defender. We meet a longtime waitress who takes pride in making regulars and newcomers alike feel at home in her Nashville diner. We meet a young man on the South Side of Chicago who became a teacher in order to help at-risk teenagers like the ones who killed his father get on the right track. We meet a woman from Little Rock who helps former inmates gain the skills and confidence they need to rejoin the workforce. Together they demonstrate how work can be about much more than just making a living, that chasing dreams and finding inspiration in unexpected places can transform a vocation into a calling. Their shared sense of passion, honor, and commitment brings deeper meaning and satisfaction to every aspect of their lives. An essential contribution to the beloved StoryCorps collection, *Callings* is an inspiring tribute to rewarding work and the American pursuit of happiness.

[Building Better Citizens](#) Holly Korbey, 2019-10-21 Educating for citizenship was the original mission of American schools, but for decades that knowledge—also known as civics education—has been in decline, as schools have shifted focus to college and career, STEM, and raising reading and math scores. But over the last few years, spurred on by political polarization and a steep decline in public understanding, civics education is seeing a nation-wide resurgence, as school leaders, educators,

and parents recognize the urgency of teaching young people how America works—especially young people who have been marginalized from the political system. But this isn't your grandmother's civics. The "new" civics has been updated and retooled for the phone-addicted, multi-cultural, globalized twenty-first century kid. From combatting "fake news" with fact checking in Silicon Valley, to reviving elementary school social studies in Nashville, to learning civic activism in Oklahoma City, journalist Holly Korbey documents the grassroots revival happening across the country. Along the way, she provides an essential guidebook for educators, school leaders and caregivers of all types who want to educate a new generation of engaged citizens at a critical time in American democracy.
