The Food Lab: Better Home Cooking Through Science J. Kenji López-Alt, 2015-09-21 Over 1 Million Copies Sold A New York Times Bestseller Winner of the James Beard Award for General Cooking and the IACP Cookbook of the Year Award The one book you must have, no matter what you're planning to cook or where your skill level falls.—New York Times Book Review Ever wondered how to pan-fry a steak with a charred crust and an interior that's perfectly medium-rare from edge to edge when you cut into it? How to make homemade mac 'n' cheese that is as satisfyingly gooey and velvety-smooth as the blue box stuff, but far tastier? How to roast a succulent, moist turkey (forget about brining!)—and use a foolproof method that works every time? As Serious Eats's culinary nerd-in-residence, J. Kenji López-Alt has pondered all these questions and more. In *The Food Lab*, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Kenji shows that often, conventional methods don't work that well, and home cooks can achieve far better results using new—but simple—techniques. In hundreds of easy-to-make recipes with over 1,000 full-color images, you will find out how to make foolproof Hollandaise sauce in just two minutes, how to transform one simple tomato sauce into a half dozen dishes, how to make the crispiest, creamiest potato casserole ever conceived, and much more.

Rose Water and Orange Blossoms Maureen Abood,2015-04-28 Pomegranates and pistachios. Floral waters and cinnamon. Bulgur wheat, lentils, and succulent lamb. These lush flavors of Maureen Abood's childhood, growing up as a Lebanese-American in Michigan, inspired Maureen to launch her award-winning blog, Rose Water & Orange Blossoms. Here she revisits the recipes she was reared on, exploring her heritage through its most-beloved foods and chronicling her riffs on traditional cuisine. Her colorful culinary guides, from grandparents to parents, cousins, and aunts, come alive in her stories like the heady aromas of the dishes passed from their hands to hers. Weaved throughout are the stories of Maureen's Lebanese-American upbringing, the path that led her to culinary school and to launch her blog, and life in Harbor Springs, her lakeside Michigan town.

Who We Are Dale Ellis,2009 Are you feeling a loss of connection to people? If you feel a longing for points of reference in your life, then you may enjoy the stories contained in this book. I wrote this book from memories of stories told about some of my ancestors, my own growing up, my children's growing up, my visions, and some of the foods my family loved. Included in the stories of my ancestors is the story of my Grandmother's life. When I was five years old she asked me to write it for her. It is done. My family has always been a visionary family. Some of my visions are written here. These stories tell of how we chose to live, work, love and start over. As you read from the pages of my memories, you will experience with my family the hardships, joys, challenges and successes of our ancestors and myself as I grew up, got married and raised our 11 children.

The Baby's Table Brenda Bradshaw,Lauren Bramley,2010-03-30 The essential guide to giving your baby the best possible start in life. Why bother making your own baby food when there are so many choices conveniently located at your grocery store? Unfortunately, many people don't realize just how easy (not to mention economical!) it is to make your own. Armed with a steamer, a blender and a little planning, in one afternoon parents can prepare a month's supply of healthy, wholesome meals for their infants and toddlers -- food that's bursting with nutrition and flavour. By introducing your baby to a wide range of fresh, stimulating tastes and textures, you will help establish healthy eating patterns they will follow into

adulthood. Recipes such as Vegetable Ragout, Broccoli Risotto, Chicken Apple Delight and Gourmet Tuna Melts, all kid-tested and mom-approved, are grouped according to age: four to six months, six to eight months, eight to twelve months and twelve to twenty-four months. And most of the recipes are designed to be prepared in advance and frozen in single servings. It couldn't be easier to provide your baby with great taste, freshness, variety and balanced nutrition. It's also important to note that none of the recipes in this book contains any added salt or sugar, not to mention the starches and fillers found in many commercially prepared jarred varieties. The Baby's Table was co-written by a teacher and a medical doctor, in response to patient demand and their own needs as parents. Creative recipes that stress the importance of whole foods and fresh ingredients, in combination with current medical/nutritional information that complies with the Canadian Paediatric Society's guidelines, make this book the most comprehensive resource available for practical advice on feeding your baby. Your baby's nutrition is critical for growth and development. Making your own baby food is a fun and cost-efficient way to participate in your baby's health, offering the widest variety of textures and flavours, as well as many other nutritional advantages not available in commercial baby food. Give it a try and watch your little one grin from ear to ear! Also included are weekly and monthly meal-planners, growth and development charts, and detailed information on relevant topics such as:

- Breastfeeding • Weaning • Formulas • Vitamin supplementation • Timing of introducing new foods • Food allergies and intolerances • Omega-3 fatty acids • Choking • Iron deficiency • Fluoride use

LET'S EAT! Sharon Musso,2009-11-09 Both regular and dieters can use these meal and snack suggestions. If you are dieting then look for and use items with lower sodium, low fat or fat free. There are tables of food items that give a general serving of that particular item. When using the suggested serving size just remember that you might need more than one serving of each of that item to accommodate what your body weight and size and physical activities will need on a daily basis. Remember that a serving is merely a means of measuring the amount of calories and nutritional information of what you are consuming each meal. You choose all that your body will need. Ask your doctor of course if there are any restrictions when following any meal plans. There are also holidays, special days, celebrations, anniversary dates and special events meal plans. I've included some recipes, plain cooking. You can tailor these recipes with your favorite seasonings, herbs and other choices.

Cooking for Life Cooking for Delight Kamlesh Kapur, 2016-03-24 This cookbook with simple, easy-to-follow recipes focuses on restoring balance with proper understanding of how to use herbs and spices. Food is not just for the palate; it has to satisfy and appeal to all other senses through texture, temperature, and aroma. Many combinations of a wide variety of vegetables, herbs, and spices not only promote better health but also cater to our taste. The recipes in this book use ingredients with six distinct taste: astringent, bitter, pungent, salty, sour, and sweet. The book is divided in sections. Spices are listed according to their strength; the mildest are at the end of the list, along with sweet spices. Helpful hints are given for each section of recipes. Most dishes require fifteen to forty-five minutes; some desserts even take just about ten minutes. It is suggested that while planning menus or preparing a dish, let one dish supplement what the other lacks. Let garlic and onions neutralize the toxins of the meats and the fish preparations. It is emphasized that proper menus may not completely cure chronic, complex diseases, yet they certainly can help revitalize the body. Food lovers will be happy to know that healthy food is not insipid, sick looking, or tasteless. Balanced food is neither complicated nor tedious to make, and it is easy to combine more enjoyment with more nutrition. A typical Indian lunch or dinner includes two vegetable dishes, yogurt, chutney, one soupy dal or curry, and roti. Often, roti is replaced by rice pilao. Fresh produce, homemade dairy products, herb, and delicate combinations of mild to strong spices create healthy meals and fill the kitchen and dining area with hunger-kicking aroma.
