Was the Cat in the Hat Black? Philip Nel,2017-07-06 Racism is resilient, duplicitous, and endlessly adaptable, so it is no surprise that America is again in a period of civil rights activism. A significant reason racism endures is because it is structural: it's embedded in culture and in institutions. One of the places that racism hides—and thus perhaps the best place to oppose it—is books for young people. *Was the Cat in the Hat Black?* presents five serious critiques of the history and current state of children's literature tempestuous relationship with both implicit and explicit forms of racism. The book fearlessly

examines topics both vivid-such as The Cat in the Hat's roots in blackface minstrelsy-and more opaque, like how the children's book industry can perpetuate structural racism via whitewashed covers even while making efforts to increase diversity. Rooted in research yet written with a lively, crackling touch, Nel delves into years of literary criticism and recent sociological data in order to show a better way forward. Though much of what is proposed here could be endlessly argued, the knowledge that what we learn in childhood imparts both subtle and explicit lessons about whose lives matter is not debatable. The text concludes with a short and stark proposal of actions everyone-reader, author, publisher, scholar, citizen-can take to fight the biases and prejudices that infect children's literature. While *Was the Cat in the Hat Black?* does not assume it has all the answers to such a deeply systemic problem, its audacity should stimulate discussion and activism.

Tuesdays with Morrie Mitch Albom, 2007-06-29 #1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that has changed millions of lives with the story of an unforgettable friendship, the timeless wisdom of older generations, and healing lessons on loss and grief—featuring a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times “The most important thing in life is to learn how to give out love, and to let it come in.” Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was his college professor Morrie Schwartz. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder.

Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final "class": lessons in how to live. "The truth is, Mitch," he said, "once you learn how to die, you learn how to live." Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

Muscle Samuel W. Fussell,1992-08-01 At age 26, scrawny, Oxford-educated Samuel Fussell entered a YMCA gym in New York to escape the terrors of big city life. Four years and 80 lbs. of firm, bulging muscle later, he was competing for bodybuilding titles in the Iron Mecca of Southern California-so weak from intense training and starvation he could barely walk. MUSCLE is the harrowing, often hilarious chronicle of Fussell's divine obsession, his search for identity in a bizarre, eccentric world of health fascists, gym bunnies and muscleheads-and his devout, single-minded acceptance of illness, pain, nausea, and steroid-induced rage in his quest for the holy grail of physical perfection.

All About Love bell hooks,2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' Love Song to the Nation trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and

healing for individuals and for a nation. The Utne Reader declared bell hooks one of the “100 Visionaries Who Can Change Your Life.” All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

A History of the Harlem Renaissance Rachel Farebrother, Miriam Thaggert, 2021-02-04 The Harlem Renaissance was the most influential single movement in African American literary history. The movement laid the groundwork for subsequent African American literature, and had an enormous impact on later black literature world-wide. In its attention to a wide range of genres and forms – from the roman à clef and the bildungsroman, to dance and book illustrations – this book seeks to encapsulate and analyze the eclecticism of Harlem Renaissance cultural expression. It aims to re-frame conventional ideas of the New Negro movement by presenting new readings of well-studied authors, such as Zora Neale Hurston and Langston Hughes, alongside analysis of topics, authors, and artists that deserve fuller treatment. An authoritative collection on the major writers and issues of the period, A History of the Harlem Renaissance takes stock of nearly a hundred years of scholarship and considers what the future augurs for the study of 'the New Negro'.

10 Fat Turkeys Tony Johnston, 2009 A rhyming story about ten turkeys sitting on a fence.

The Man and the Statesman Frédéric Bastiat, 2011 Liberty Fund's new six-volume The Collected Works of Frédéric Bastiat series, of which The Man and the Statesman is the first volume, may be considered the most complete edition of Bastiat's works published to date, in any country, and in any language. The main source for this translation is the seven-volume Oeuvres complètes de Frédéric Bastiat, published in the 1850s and 1860s. The present volume, most of which has never before been translated into English, includes Bastiat's complete correspondence: 207 letters Bastiat wrote between 1819, when he was only 18 years old, until just a few days before his untimely death in 1850 at the age of 49. For contemporary classical liberals, Bastiat's correspondence will provide a unique window into a long-forgotten world where opposition to war and colonialism went hand-in-hand with support for free trade and deregulation. Bastiat's numerous letters to Richard Cobden, a Member of Parliament and best known today as the leader of the British Anti-Corn Law League, chronicle the profound effect the Anti-Corn League had on Bastiat. The League's success in mobilizing a popular movement in England to pressure the British government into abolishing the very protectionist corn laws, in 1846, inspired Bastiat to emulate the League's success in France by starting his own free-trade movement. The Man and the Statesman also includes articles and other writings on politics and current events that showcase Bastiat's talent as a theoretician, a pamphleteer, a journalist, and a deputy (Member of Parliament) of the nascent French Second Republic. Together with the correspondence,

the writings in this volume fill an important gap in our understanding of the lesser-known Bastiat, who, in just a few short years, made a profound impact on French intellectual and political life in Paris. Forthcoming titles in The Collected Works of Frederic Bastiat series include: The Law, The State, and Other Political Writings, 1843-1850 Economic Sophisms and What is Seen and What is Not Seen Miscellaneous Works on Economics: From Jacques-Bonhomme to Le Journal des économistes Economic Harmonies The Struggle Against Protectionism: The English and French Free-Trade Movements Frederic Bastiat (1801-1850) was born in the French port city of Bayonne and became one of the leading advocates of free markets and free trade in the mid-nineteenth century. A theorist of classical liberal political economy and an elected member of various French political bodies, he opposed both protectionism and the rise of socialist ideas. Jacques de Guenin is president of the Cercle Frederic Bastiat. He is a graduate of the école des Mines in Paris and holds a Master of Sciences from the University of California, Berkeley. Jean-Claude Paul-Dejean is a historian from the University of Bordeaux and a Bastiat scholar. Dennis O'Keeffe is Professor of Social Science at the University of Buckingham, Buckingham, England, and is Senior Research Fellow in Education at the Institute of Economic Affairs, London. David M. Hart received a Ph.D. in history from King's College, Cambridge, and is the Director of Liberty Fund's Online Library of Liberty Project.

Future Perfect Victoria Loustalot, 2019 A witty, unflinching, and provocative memoir about one woman's journey into the fact, fiction, and fraud of the modern mystical complex. In the months following the breakup with her longtime boyfriend, Victoria Loustalot crossed paths with multiple psychics eager to impart their vision. Persistent and prescient, each one slightly chipped away at Victoria's innate skepticism. She had to admit that what they knew about her past was eerily accurate. As for her future? She couldn't shake the feeling that some powerful force in the universe was trying to tell her something and, for once, she ought to listen. Or at least investigate. In Future Perfect, Victoria draws on her own personal experience to launch a broader inquiry into the phenomena of psychics, shamans, astrologers, and their fans. Through historical documents and interviews with clairvoyants, seers, and their believers, Victoria opens herself up to the modern mystical complex in cultures and cities around the globe. She pays close attention to what they have to tell us about how we choose to live, what we might be missing out on in the process, and what in the world we're supposed to do with all that information.
