William Hodgins Interiors Stephen M Salny,Margaret Russell,2013-11-19 A lavish look at the work, over nearly half a century, of one of the last of the great old-guard decorators. One of the deans of American interior decoration, William Hodgins follows in the footsteps of the legendary Billy Baldwin and also Sister Parish and Albert Hadley, for whom he worked early in his career. Based in Boston since the late 1960s, Hodgins's work encompasses residential commissions from New England to Florida, as far west as California, and overseas. His interiors have been celebrated in the pages of Architectural Digest, House & Garden, House Beautiful, and other magazines and books. This is the first publication entirely devoted to his oeuvre, which spans five decades. Hodgins's rooms are beautiful, thoughtful, and poetic; they are airy, light-filled spaces. They are also, in his words, as "extraordinarily luxurious as they can be in a quiet, understated way." Handsome architectural detailing and a soothing palette work their magic and create visual flow; Hodgins is a master artist, his designs reminiscent of Merchant-Ivory films. A Hodgins interior is governed by white, and the decorator invokes the slightest of subtleties and different shades of white. For Hodgins, whites "reflect the quality of life and light in a room." They "glow behind the art and

furniture,” are restful, timeless, and age gracefully. Yet Hodgins is also noted for his judicious use of exquisitely clear and jewel-like colors: this skillful combination makes his interiors special, inviting, and comfortable. Among the forty notable commissions covered in this generously illustrated book are the private quarters of the American ambassador’s residence in Paris (1997), a pied-a-terre in a 1920s Beaux-Arts apartment building on San Francisco’s Nob Hill, several prewar cooperative apartments in New York City, and a considerable number of houses and apartments in the Boston and Washington, DC, areas and in Palm Beach, Florida. The majority of his commissions have been carried out for repeat and loyal clients, many of whom have commissioned him to decorate multiple homes. This presentation of his work will be valued not only by professional decorators but also by everyone seeking the best in interior design.

The Air Trust George Allan England,2017-03-17 1915 Dystopian Science Fiction All mine, more or less, said he to himself, puffing deep on his cigar.... The millions eat and drink and buy and sell; and I take toll of it-yet it is not enough. I hold them in my hand, yet the hand cannot close, completely. And until it does, it is not enough! No, not enough for me!... What can it be? For power I must have! Like Caesar, who preferred to be first in the smallest village, rather than be second at Rome, I can and will have no competitor. I must rule all, or the game is worthless! But how? Almost as in answer to his mental question, a sudden gust of air swayed the curtain and brushed it against his face. And, on the moment, inspiration struck him. What? he exclaimed suddenly, his brows wrinkling, a strange and eager light burning in his hard eyes. Eh, what? Can it-could it be possible? My God! If so-if it might be-the world would be my toy, to play with as I like!

Designs on Film Cathy Whitlock,The Art Directors Guild,2013-02-05 Who can forget the over-the-top, white-on-white, high-gloss interiors through which Fred Astaire danced in *Top Hat*? The modernist high-rise architecture, inspired by the work of Frank Lloyd Wright, in the adaptation of Ayn Rand's *The Fountainhead*? The lavish, opulent drawing rooms of Martin Scorsese's *The Age of Innocence*? Through the use of film design—called both art direction and production design in the film industry—movies can transport us to new worlds of luxury, highlight the ornament of the everyday, offer a vision of the future, or evoke the realities of a distant era. In *Designs on Film*, journalist and interior designer Cathy Whitlock illuminates the often undercelebrated role of the production designer in the creation of the most memorable moments in film history. Through a lush collection of rare archival photographs, Whitlock narrates the evolving story of art direction over the course of a century—from the massive Roman architecture of *Ben-Hur* to the infamous Dakota apartment in *Rosemary's Baby* to the digital CGI wonders of *Avatar's Pandora*. Drawing on insights from the most prominent Hollywood production designers and the historical knowledge of the venerable Art Directors Guild, Whitlock delves into the detailed process of how sets are imagined, drawn, built, and decorated. *Designs on Film* is the must-have look book for film lovers, movie buffs, and anyone looking to draw interior design inspiration from the constructions and confections of Hollywood. Whitlock lifts the curtain on movie magic and celebrates the many ways in which art direction and set design allow us to lose ourselves in the diverse worlds showcased on the big screen.
