Before We Were Strangers Renée Carlino,2015-08-18 From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist “missed connection” post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn’t stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost

touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half?

[This Chair Rocks](#) Ashton Applewhite, 2019-03-05 Author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we're bombarded by media images and messages about the despairs and declines of our later years. Beauty and pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds and bodies are too frail to keep up with the pace of the modern working world and olders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life. Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It's time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you're older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride! "Wow. This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise, passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me."
—Anne Lamott, New York Times bestselling author

The Architecture of Urbanity Vishaan Chakrabarti, 2024-09-24 From one of today's most inspired architects and urban advocates, a manifesto for architecture as a force for addressing our biggest social challenges The world is facing unprecedented challenges, from climate change and population growth, to political division and technological dislocation, to declining mental health and fraying cultural fabric. With most of the planet's population now living in urban environments, cities are the spaces where we have the greatest potential to confront and address these problems. In this visionary book, Vishaan Chakrabarti argues for an "architecture of urbanity," showing how the design of our communities can create a more equitable, sustainable, and joyous future for us all. Taking readers from the great cities of antiquity to the worldwide exurban sprawl of our postindustrial age, Chakrabarti examines architecture's relationship to history's greatest social, technological, and environmental dilemmas. He then presents a rich selection of work by a global array of practicing architects, demonstrating how innovative design can dramatically improve life in big cities and small settlements around the world, from campuses and refugee camps to mega-cities like São Paulo, Lima, Los Angeles, New York, Paris, and Tokyo. Lavishly illustrated with a wealth of original graphics, data visualizations, photographs, and drawings, *The Architecture of Urbanity* eloquently explains why cities are the last, best hope for humanity, and why designers must, alongside political, business, community, and cultural leaders, steward the healing of our planet.

To Boldly Go Djoymi Baker,2018-03-06 Today's media, cinema and TV screens are host to new manifestations of myth, their modes of storytelling radically transformed from those of ancient Greece. They present us with narratives of contemporary customs and belief systems: our modern-day myths. This book argues that the tools of transmedia merchandising and promotional material shape viewers' experiences of the hit television series Star Trek, to reinforce the mythology of the gargantuan franchise. Media marketing utilises the show's method of recycling the narratives of classical heritage, yet it also looks forward to the future. In this way, it reminds consumers of the Star Trek story's ongoing centrality within popular culture, whether in the form of the original 1960s series, the later additions such as Voyager and Discovery or J. J. Abrams' `reboot' films. Chapters examine how oral and literary traditions have influenced the series structure and its commercial image, how the cosmological role of humanity and the Earth are explored in title sequences across various Star Trek media platforms, and the multi-faceted way in which Internet, video game and event spin-offs create rituals to consolidate the space opera's fan base. Fusing key theory from film, TV, media and folklore studies, as well as anthropology and other specialisms, To Boldly Go is an authoritative guide to the function of myth across the whole Star Trek enterprise.

Now in paperback. For as long as ZJ can remember, his dad has been everyone's hero. As a charming, talented pro football star, he's as beloved to the neighborhood kids he plays with as he is to his millions of adoring sports fans. But lately life at ZJ's house is anything but charming. His dad is having trouble remembering things and seems to be angry all the time. ZJ's mom explains it's because of all the head injuries his dad sustained during his career. ZJ can understand that--but it doesn't make the sting any less real when his own father forgets his name. As ZJ contemplates his new reality, he has to figure out how to hold on tight to family traditions and recollections of the glory days, all the while wondering what their past amounts to if his father can't remember it. And most importantly, can those happy feelings ever be reclaimed when they are all so busy aching for the past?

EDISON MOTION PICTURES MUSSER CHARLES,1997 This book provides essential documentation of all known Edison films made between 1890 and 1900.
