**Sticks and Stones** Melissa Lennig,2019-05-07 *Sticks and Stones* presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using materials readily available to them to create cabins, tipis, bridges, dams, and more. Many smaller scale projects are included, too, such as making ochre paint with shale, creating a fishing pole from a branch, and carving a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. *Sticks and Stones* was named to the longlist for the 2020 AAAS/Subaru SB&F Prize for Excellence in Science Books in the Hands-On Science Book category. Will the snow globe family at last get a chance to go sledding too?

*The Color Master* Aimee Bender,2013-08-13 The bestselling author of *The Particular Sadness of Lemon Cake* returns with a wondrous collection of dreamy, strange, and magical stories. Truly beloved by readers and critics alike, Aimee Bender has become known as something of an enchantress whose lush prose is “moving, fanciful, and gorgeously strange” (*People*), “richly imagined and bittersweet” (*Vanity Fair*), and “full of provocative ideas” (*The Boston Globe*). In her deft hands, “relationships and mundane activities take on mythic qualities” (*The Wall Street Journal*). In this collection, Bender’s unique talents sparkle brilliantly in stories about people searching for connection through love, sex, and family—while navigating the often painful realities of their lives. A traumatic event unfolds when a girl with flowing hair of golden wheat appears in an apple orchard, where a group of people await her. A woman plays out a prostitution fantasy with her husband and finds she cannot go back to her old sex life. An ugly woman marries an ogre and struggles to decide if she should stay with him after he mistakenly eats their children. Two sisters travel deep into Malaysia, where one learns the art of mending tigers who have been ripped to shreds. In these deeply resonant stories—evocative, funny, beautiful, and sad—we see ourselves reflected as if in a funhouse mirror. Aimee Bender has once again proven herself to be among the most imaginative, exciting, and intelligent writers of our time.

*Botanical Prints* Henry Evans,2011-01-11 Henry Evans (1918–1990) began making botanical prints in 1958, depicting some 1,400 subjects in 31 years. In that time, he was accorded more than 250 one-man shows in many countries around the world and in almost every state in the union. Admired by art lovers and naturalists alike, Henry's work reveals a style intriguingly personal and botanically faithful, unerring in its feeling for rhythm and design. Self-taught as a printer, botanist, and artist, he developed a unique style and technique. He drew directly from living subjects, and all subjects were portrayed life-size. He used linoleum as a printing surface and an 1852 Washington Hand Press to make the prints. All of the work was done by hand. All of the materials that were used were of the best quality, and all of the editions were limited. Each linoleum-block print was numbered, dated, and signed by the artist. After printing, the blocks were destroyed. *Botanical Prints* presents a vast array of Evans's work and goes one step further by providing excerpts from the artist's notebook, which illuminate not only the physical processes he used but also the brilliant mind that created both the prints and the prose.
