College students facing their first illness, accident, or anxiety away from home often flip-flop between wanting to handle it themselves and wishing their parents could swoop in and fix everything. Advice from peers and “Dr. Google” can be questionable. The Ultimate College Student Health Handbook provides accurate, trustworthy, evidence-based medical information (served with a dose of humor) to reduce anxiety and stress and help set appropriate expectations for more than fifty common issues. What if you can't sleep well (or can't sleep at all) in your dorm room? What if a pill “gets stuck” in your throat? What if your roommate falls asleep (or passes out) wearing contacts, and wakes up with one painfully stuck? Your friend's terrible sore throat isn't Strep or Mono? What else could it be? What should you do for food poisoning? When do you really need X-rays for a sprained ankle or injured toe? What helps severe test anxiety or fear of public speaking? Dr. Jill Grimes has the answer to these questions and many more. Her guidebook is designed to help you: Decide if and when to seek medical help Know what to expect when you get there Plan for the worst-case scenario if you don't seek help Learn how you can prevent this in the future Realize what you can do right now, before you see a doctor Understand the diagnostic and treatment options Got questions about tattoos, smoking, vaping, pot, and piercings? No worries, Dr. Grimes has covered those topics, too, as well as a few things you might not know about the use and abuse of stimulant (ADD) prescription medications. Pair this book with the DIY First Aid Kit detailed in the bonus section to help you, your roommates, and your friends have a healthier, happier semester!

*98. 6 Degrees* Cody Lundin,2011-05-16 If you breathe and have a pulse, you NEED this book. -Cody Lundin Cody Lundin, director of the Aboriginal Living Skills School in Prescott, Arizona, shares his own brand of wilderness wisdom in this highly anticipated new book on commonsense, modern survival skills for the backcountry, the backyard, or the highway. It is the ultimate book on how to stay alive-based on the principal of keeping the body's core temperature at a lively 98.6 degrees. In his entertaining and informative style, Cody stresses that a human can live without food for weeks, and without water for about three days or so. But if the body's core temperature dips much below or above the 98.6 degree mark, a person can literally die within hours. It is a concept that many don't take seriously or even consider, but knowing what to do to maintain a safe core temperature when lost in a blizzard or in the desert could save your life. Lundin delivers the message with wit, rebellious humor, and plenty of backcountry expertise. Cody Lundin and his Aboriginal Living Skills School have been featured in dozens of national and international media sources, including Dateline NBC, CBS News, USA Today, The Donny and Marie Show, and CBC Radio One in Canada, as well as on the cover of Backpacker magazine. When not teaching for his own school, he is an adjunct faculty member at Yavapai College and a faculty member at the Ecosa Institute. Cody is the only person in Arizona licensed to catch fish with his hands, and lives in a passive solar earth home sixty miles from Prescott, Arizona.

*Prepper Essentials* Jim Jackson, 2015-05-13 **WHAT WOULD YOU DO IN AN EMERGENCY SITUATION IF A DISASTER STRUCK?** The fact is, not many people are prepared for survival if a disaster struck. We often see natural disasters in the news and there is always a time delay between the occurrence and help arriving; quite often that timescale is the difference between living or dying. Therefore, being able to sustain yourself, your family and pets is something we should consider and take action in order to increase the chances of survival. This book *Prepper Essentials*, by author, Jim Jackson, is the complete

toolkit for your needs. The chapters clearly lay out how to manage your water and food needs, how to create a first-aid kit and finally how to handle pets, at a time when they will be confused and stressed too. As the old saying goes, By failing to prepare, you are preparing to fail - Benjamin Franklin. This book helps with that preparation and is a must-read for those interested in stockpiling and survival in general.
