P. Allen Smith's Garden Home P. Allen Smith,2003 Lots of people want gardens but find the prospect of getting started a bit daunting. P. Allen Smith's Garden Home is P. Allen Smith's inviting solution. Smith begins with his own story: his family's love of gardens and experience in the nursery business, his own education at the great gardens of England, and his discovery that we all have, as he says, a longing for our agrarian past. After walking us through his own garden home and explaining why he made the choices he did, Allen introduces his 12 principles of garden design, discussing such topics as a sense of enclosure, framing the view, texture, pattern, rhythm, and, of course, color. Then, with step-by-step projects, he shows readers how to apply the principles in their own garden homes. For the millions of people who know Smith through his syndicated television show, Weather Channel segments, and appearances on The Early Show, this book is the irresistible invitation to follow him into the garden.

The Social Meaning of Money Viviana A. Zelizer, 2021-09-14 A dollar is a dollar—or so most of us believe. Indeed, it is part of the ideology of our time that money is a single, impersonal instrument that impoverishes social life by reducing relations to cold, hard cash. After all, it's just money. Or is it? Distinguished social scientist and prize-winning author Viviana Zelizer argues against this conventional wisdom. She shows how people have invented their own forms of currency, earmarking money in ways that baffle market theorists, incorporating funds into webs of friendship and family relations, and otherwise varying the process by which spending and saving takes place. Zelizer concentrates on domestic transactions, bestowals of gifts and charitable donations in order to show how individuals, families, governments, and businesses have all prescribed social meaning to money in ways previously unimagined.
