The Hong Kong Letters Gill Shaddick, 2019-03-29 In the late sixties when the Beatles are top of the charts and Twiggy is hitting the catwalk, Gill embarks on a life-changing journey to Hong Kong. Mao's revolution is at its height. Vietnam has become America's longest war with no end in sight. But it's at an ad agency under insane direction where Gill finds her battles and learns to stand her ground. In this spirited memoir, where Mad Men meets Han Suyin's A Many-Splendoured Thing, Gill recreates a Hong Kong of the imagination. Attractive and naïve, wined and dined by Hong Kong's elite, she gravitates towards camaraderie outside the world of advertising and money, and adventure follows. A weekend sail goes awry when a yacht with her on board strays into the waters of Communist China. A full-scale sea and air search mounted from Hong Kong can find no trace. Yet Gill is very much alive. With her friends, she is reciting from Mao's Little Red Book with no idea what fate awaits her or how long she will be held. The Hong Kong Letters is part memoir, part travelogue. Gill introduces us to characters that fiction couldn't have invented any better and transports the reader to another time and place, a reminder that anyone can fit the experiences of a lifetime into two short years.

Golden Years of Flying Tex Searle, 2008 Recording the legacy of flying the DC-3 in the Rocky Mountains with Frontier Airlines, this historical narrative captures the stories of the pilots who flew from 1946 to 1986 and who had many record-

breaking achievements. Anecdotes bring to life the exciting adventures of flying through tornado alley without radar, flying into dimly lit airports and those hidden in deep mountain canyons, and of flying in skies heavy with rain clouds and streaked with lightning. With firsthand retellings of how pilots dealt with early navigation methods, these accounts will delight and instruct aviation-history enthusiasts and pilots alike.

Skillful Reading & Writing David Bohlke, 2012 Every student needs top class reading and writing to succeed at an academic level. Skillful focuses on these two skills to give presentation, instant practice and complete immersion in those language skills. It offers students the opportunity to develop language skills by presenting them with ideas from today's world, while building critical thinking skills that are vital for academic success. This is taken even further with a focus on study skills, providing students with practical guidance and support, and building confidence for independent learning throughout their university career.

My Deah John Epperson, 2007 In this outlandish re-working of Euripides' *Medea*, Gator Hedgepeth, a former Mississippi football star, plans to abandon his wife My Deah – an ex-beauty queen from Louisiana – and marry Simplicity Bullard, the daughter of the corrupt Mississippi governor. My Deah's bridge-playing buddies show up to play their weekly card game. Instead they get the domestic scoop from the touchy housekeeper Lillie V., and the physical education tutor of My Deah's sons, closeted homosexual Coach McCallister. My Deah confronts her card-dealing friends as well as the Governor, and she lays her bloody plans. Her vengefulness leads to the murders of trashy Simplicity and her father, and ultimately to the deaths of her own senseless sons, Skipper and Scooter. Deus ex machina, faux-Greekstyle, enables My Deah to attempt getaway to anonymity in wild, inebriated, immediately pre- Hurricane Katrina New Orleans. She hits the road, leaving Gator behind to live with the tragedy wrought by MY DEAH.

An Illustrated Guide to the Federated Malay States (Classic Reprint) Cuthbert Woodville Harrison, 2016-09-08
Excerpt from *An Illustrated Guide to the Federated Malay States* But the Portuguese themselves were being attacked by the Dutch. In 1606 the Dutch fleet bombarded Malacca and nearly captured it and in 1641 the city finally fell. On this occasion the Malays assisted the Dutch from Johor, where the Malay kingdom had managed to raise its head again as the Portuguese power waned. Holland dominated the Malay East from 1641, but made no attempt to do more than maintain trading settlements. Some poor administration of the Peninsula was carried on by the Malay princes in Pahang, Johor and Perak. It was about this time that a band of Malays from Sumatra effected a peaceful penetration to the hinterland of Malacca and established themselves, a highly democratic community, in what is now the Negri Sembilan. These were a remarkable people. They seem to have fraternised with the wild tribes they found in the country, and to have settled down to possess it both without fighting to get it and without fighting to keep it. Probably their numbers and organisation were too formidable for Peninsular Malay princes to molest. Besides this these princes began to be harried by the far more warlike Bugis Malays from the Malay Archipelago, and though the Dutch supported them against the Bugis the struggles between the two were absorbing. China and Maritime Europe, 1500-1800 John E. Wills, Jr, 2010-12-31 *China and Maritime Europe, 1500-1800* looks at early modern China in some of its most complicated and intriguing relations with a world of increasing global interconnection. New World silver, Chinese tea, Jesuit astronomers at the Chinese court, and merchants and marauders of all kinds play important roles here. Although pieces of these stories have been told before, these chapters provide the fullest and clearest available summaries, based on sources in Chinese and in European languages, making this information accessible to students and scholars interested in the growing connections among continents and civilizations in the early modern period.

Marconi Marc Raboy, 2016-06-28 A little over a century ago, the world went wireless. Cables and all their limiting inefficiencies gave way to a revolutionary means of transmitting news and information almost everywhere, instantaneously. By means of Hertzian waves, as radio waves were initially known, ships could now make contact with other ships (saving lives, such as on the doomed S.S. Titanic); financial markets could coordinate with other financial markets, establishing the price of commodities and fixing exchange rates; military commanders could connect with the front lines, positioning artillery and directing troop movements. Suddenly and irrevocably, time and space telescoped beyond what had been thought imaginable. Someone had not only imagined this networked world but realized it: Guglielmo Marconi. As Marc Raboy shows us in this enthralling and comprehensive biography, Marconi was the first truly global figure in modern communications. Born to an Italian father and an Irish mother, he was in many ways stateless, working his cosmopolitanism to advantage. Through a combination of skill, tenacity, luck, vision, and timing, Marconi popularized--and, more critically, patented--the use of radio waves. Soon after he burst into public view at the age of 22 with a demonstration of his wireless apparatus in London, 1896, he established his Wireless Telegraph & Signal Company and seemed unstoppable. He was decorated by the Czar of Russia, named an Italian Senator, knighted by King George V of England, and awarded the Nobel Prize for Physics--all before the age of 40. Until his death in 1937, Marconi was at the heart of every major innovation in electronic communication, courted by powerful scientific, political, and financial interests. He established stations and transmitters in every corner of the globe, from Newfoundland to Buenos Aires, Hawaii to Saint Petersburg. Based on original research and unpublished archival materials in four countries and several languages, Raboy's book is the first to connect significant parts of Marconi's story, from his early days in Italy, to his groundbreaking experiments, to his protean role in world affairs. Raboy also explores Marconi's relationships with his wives, mistresses, and children, and examines in unsparing detail the last ten

years of the inventor's life, when he returned to Italy and became a pillar of Benito Mussolini's fascist regime. Raboy's engrossing biography, which will stand as the authoritative work of its subject, proves that we still live in the world Marconi created.
